

Abdelrahman Samy

Visual Content Creator — Product Video, Motion & 3D Architectural Visualization

About Me

I create visual marketing content that combines the engineering precision of my architecture background with a commercial sense of how audiences engage with a product. My work ranges from shooting and producing short videos for handmade products to designing 3D visualization presentations for urban and commercial projects.

Certified Architect (PMP®) and member of the Saudi Council of Engineers — the technical background behind the accuracy of the 3D visualization work in this portfolio.

This portfolio is built to be continuously updated: every new project — video or photo — is added in its place within the same structure, keeping this document a true reflection of the latest completed, ongoing, and upcoming work.

Areas of Work

Video Production

Motion Graphics

3D Architectural Visualization

Product Photography

Video Editing

Voiceover & Visual Storytelling

Blender · Higgsfield · Magnific · Kling · Pika · CapCut · Adobe Premiere Pro · Adobe After Effects · AutoCAD · V-Ray · 3ds Max · Adobe Photoshop

In This Portfolio

01 — Candle Product Ads & Detail Shots | 02 — Food & Restaurant Content | 03 — Real Estate Progress Documentation

04 — 3D Architectural Visualization | 05 — In Progress, Upcoming & Photo Section | 06 — Contact

Candle Product Ads & Detail Shots

A set of publish-ready ad videos alongside supporting detail shots, shot and produced in a warm, close-up style that focuses on the craftsmanship and texture of the material — from shaping to final product.

Published Product Ads

Scented Candle — Strawberry

A publish-ready ad video capturing the moment a candle is lit under warm lighting, with an on-screen product label ("Scented Candle").

Completed

Vertical Ad Video

Scented Candle — Berry

A second entry in the same ad series, with a different decor and material, part of a unified campaign for the scented candle product family.

Completed

Vertical Ad Video

Detail Shots

Handmade Candle Making — Wick Setting

A close-up shot documenting a step in the candle's handmade production process, with soft lighting that highlights texture and detail.

Completed

Vertical Video

Marbled Wax Pendants

A detailed look at a blue marbled wax pendant, part of a hanging product line available in multiple colors.

Completed

Vertical Video

Teddy Bear Candles

Product presentation on a light silk fabric, with a calm composition that highlights the color contrast between the two pieces.

Completed

Vertical Video

Product Detail Shot

A natural scene with warm daylight, presenting the product in a style closer to everyday use.

Completed

Vertical Video

Food & Restaurant Content

Restaurant marketing content that focuses on the texture and motion of food, with short descriptive on-screen text to highlight the flavor and drive viewer engagement.

Restaurant Food Experience Video

A restaurant content video capturing a close-up moment of tasting the dish, with short descriptive text appearing throughout the video (such as the word "Sweet") to describe the flavor of each ingredient. The style relies on calm motion and warm lighting to make the viewer feel like they are tasting the dish themselves.

Format

Widescreen Video

Real Estate Progress Documentation

Periodic aerial photography documenting the execution stages of real estate projects, with animated graphics showing completion percentage and land layout — helping clients and stakeholders track progress first-hand.

Project Progress Video — Aerial Footage

An aerial (drone) video of a residential project under construction, showing the land layout with plot areas, and execution stages from foundations through to advanced finishing across dozens of units, with an animated graphic showing the project's overall completion percentage at the time of filming. This type of video is used for periodic progress reports and to keep clients and investors informed of the latest execution updates in a professional, comprehensive way.

Widescreen Video

3D Architectural Visualization

Drawing on my architecture background to produce 3D visualization presentations for urban and commercial projects, combining technical precision with visual storytelling in service of marketing goals.

Metro Station — Ancient Egyptian-Themed Interior

An architectural presentation video of an interior design for a metro station inspired by ancient Egyptian style, featuring a central obelisk, lotus-capital columns, and hieroglyphic wall carvings, alongside commercial and service elements (a café, entry gates) within the space. The video is fully produced in 3D and aims to give a clear visual concept of the project before execution.

In Progress & Upcoming

+

Video project in progress
Will be added here once complete

+

Upcoming project
Will be added here once work begins

How This Updates

This portfolio is built on a fixed template: videos are grouped under the video section, photos under the photo section, and each new project is tagged by status (Completed / In Progress / Upcoming). When a new project is added, the nearest "+" placeholder is replaced with the project's details without changing the overall design.

Photo Section — Ad Designs

Kofa — Taste of Authenticity

An ad design for a crispy fried chicken combo, in a warm, realistic style that highlights the product and the restaurant's visual identity.

Completed

Ad Design

More Ad Designs

Sandwich Ad — Spicy Chicken Melt

An ad design for a sandwich product in a bold visual style that highlights the layers of cheese and spicy sauce.

Completed

Ad Design

Dunkin' Ad — Branch Opening

An Arabic-language ad poster for a new branch opening, combining the location and the promotional offer into a single design.

Completed

Ad Design

Café Cup Brand Identity

A print design for a paper cup as part of a café's brand identity, set against a warm interior atmosphere.

Completed

Ad Design

½M Drink — Sports Campaign

An ad design for a drink as part of a campaign set against a padel / pickleball court atmosphere.

Completed

Ad Design
