● Profile

I make visual marketing content that pairs an architect's precision with a commercial sense of how people respond to a product. I shoot and produce short ad videos for handmade products and restaurants, design ads and social posts for food and drink brands, and build 3D presentation films for urban and commercial projects. Every piece below was made for a real brand and published.

● Selected work

Product ads & brand film

Serah Candela

- Shot and produced a series of publish-ready vertical ads for a handmade luxury candle brand, built around the wax pour, the lighting moment and close-up texture.
- Two-part scented candle campaign (strawberry and berry), each with its own set and materials under one look.
- A 16:9 brand film covering the full range, plus studio and daylight product reels.

Ad & social design

Food & drink brands

- Dunkin'**: Arabic opening posters for two new branches (Dammam Corniche; Dr. Sulaiman Al Habib Hospital).
- Subway Arabia**: Spicy Chicken Melt launch post and fresh-baked cookies content.
- Kofa**, **½M**, **Meat Moot** and specialty coffee: product ads, a padel-themed drink campaign visual, and café cup branding.

Restaurant food video

Restaurant content

- Close-up tasting film with slow movement, warm light and short on-screen words describing each flavour.

3D & real-estate films

Architecture marketing

- Fully 3D presentation film for an ancient Egyptian themed metro station, so the client could see the project before execution.
- Periodic construction progress film for a villa compound, used to update clients and investors.

● Employment

Architect, Technical Office

Current

Jida Project · Al-Ahsa

Architect & Site Supervisor

From Apr 2025

Fanar International Arabian Company · Eastern Province

Architect & Finishing Engineer

Sep 2023 – Nov 2024

Swilam Construction Company · Egypt · built 3D models and visualizations for client approvals
